

## Third Depot Lake Dam

### *Dam Information and History*

This dam is located at the outlet of Third Depot Lake into Depot Creek in the Township of Central Frontenac. It is approximately 16 km northwest of Verona.

This dam was constructed in 1975 to provide additional low flow augmentation and flood control to that provided by Second Depot Lake Dam and reservoir. It was designed to be operated in conjunction with Second Depot Lake Dam.

### *Dam Safety*

Always exercise caution when boating, hiking or fishing near dams.

Stay off the dam structures unless the area is clearly marked for public travel.

Be alert to changes in water levels.

Read and pay attention to warning signs near dams.
